

**NUTRITION SERVICES DIVISION
MANAGEMENT BULLETIN**

No. 99-107

TO:	Sponsors of the National School Lunch, School Breakfast, and Special Milk Programs	ISSUE DATE:	July 1999
ATTENTION:	Food Service Directors		
FROM:	School Nutrition Programs		
SUBJECT:	Food Services Computer Hardware/Software Vendor Directory		

The Nutrition Services Division frequently receives requests from sponsors for information regarding computer hardware/software for food service programs. This Management Bulletin disseminates a Computer Hardware/Software Vendor Directory developed by the School Nutrition Programs Unit, and supersedes Management Bulletin 98-106.

The directory was developed to be used by School Nutrition Program sponsors as a quick reference of food service computer hardware/software vendors, and to provide a description of some of the products and services each vendor provides (e.g., software approved by the U.S. Department of Agriculture (USDA) for Nutrient Analysis of Menus; Menu Planning; Point of Service; Inventory; Free and Reduced Programs, etc.).

We plan to update the directory periodically, so if you are aware of vendors to be added to this list, please refer them to Christine Kavooras, Program Analyst, School Nutrition Programs Unit, at (916) 322-3609, (800) 952-5609 or ckavoora@cde.ca.gov.

For further information about companies whose nutrient analysis software has been tested, evaluated, and approved by USDA, please visit USDA's Internet website at:

NOTICE

This reference directory was prepared as information only and is not intended as approval or endorsement of any vendors or their products and/or services.

Marilyn Briggs, Director
Nutrition Services Division
Assistant Superintendent of Public Instruction
